

ZEIGER STRUTS HER STUFF AT THE FINISH LINE

Colorado's Joanna Zeiger showed up the women's field by almost eight minutes to win Eagleman Ironman 70.3, while Paul Amey of Great Britain took the men's title in 3:53:33 in the same race for his second 70.3 crown in three weeks June 8.

Despite Kona-like 90-degree temps and stifling humidity, Zeiger led the women's contest from start to finish, kicking off her day in the sun with a race-best 25:38 swim. Although Dede Griesbauer exited the water a slim 35 seconds back of Zeiger, the Bostonite couldn't contend with the eventual champ's 2:22:39 bike and found herself several minutes behind at T2. Zeiger then sealed the deal with a 1:30:34 run to hit the line in 4:22:32, while Griesbauer staved off Kelly Handel to finish second in 4:30:24.

In the men's race, Amey continued the winning streak he started May 18 at Ironman 70.3

Florida to take the Eagleman title. After finishing the swim one second back of Ironman 70.3 Boise winner Terenzo Bozzone, Amey put almost four minutes on the Kiwi by the start of the run. Bozzone recovered with a day's-fastest 1:14:22 half-marathon, but Amey had amassed enough of a lead on the bike to secure the win and force Bozzone to settle for second in 3:56:24. The 2006 Eagleman champ Chris Legh threatened the frontrunners with a smoking 2:06:54 bike split but was DQ'd at the finish line for not serving a drafting penalty.
